CHECK OUT AND FIND

WAECO ADAPTERS FOR VIDEO CABLES

SOLUTIONS FOR RETROFITS AND CONVERSIONS

Check out and find: Easy ways to find the right adapter

Your customer's vehicle already has a video cable installed which you want to use to connect a reversing video system from the current WAECO range. Or, your customer wants to have an old camera-monitor system replaced with a new WAECO system. No problem whatsoever, WAECO has the matching adapter for all situations you may face when it comes to retrofits or conversions.

You start by comparing the plugs and sockets with those shown in the brochure to find out what type of video cable is fitted in the vehicle (WAECO or other make). The diagrams will tell you which adapter fits the configuration. Just order the adapter along with the WAECO components of your choice.

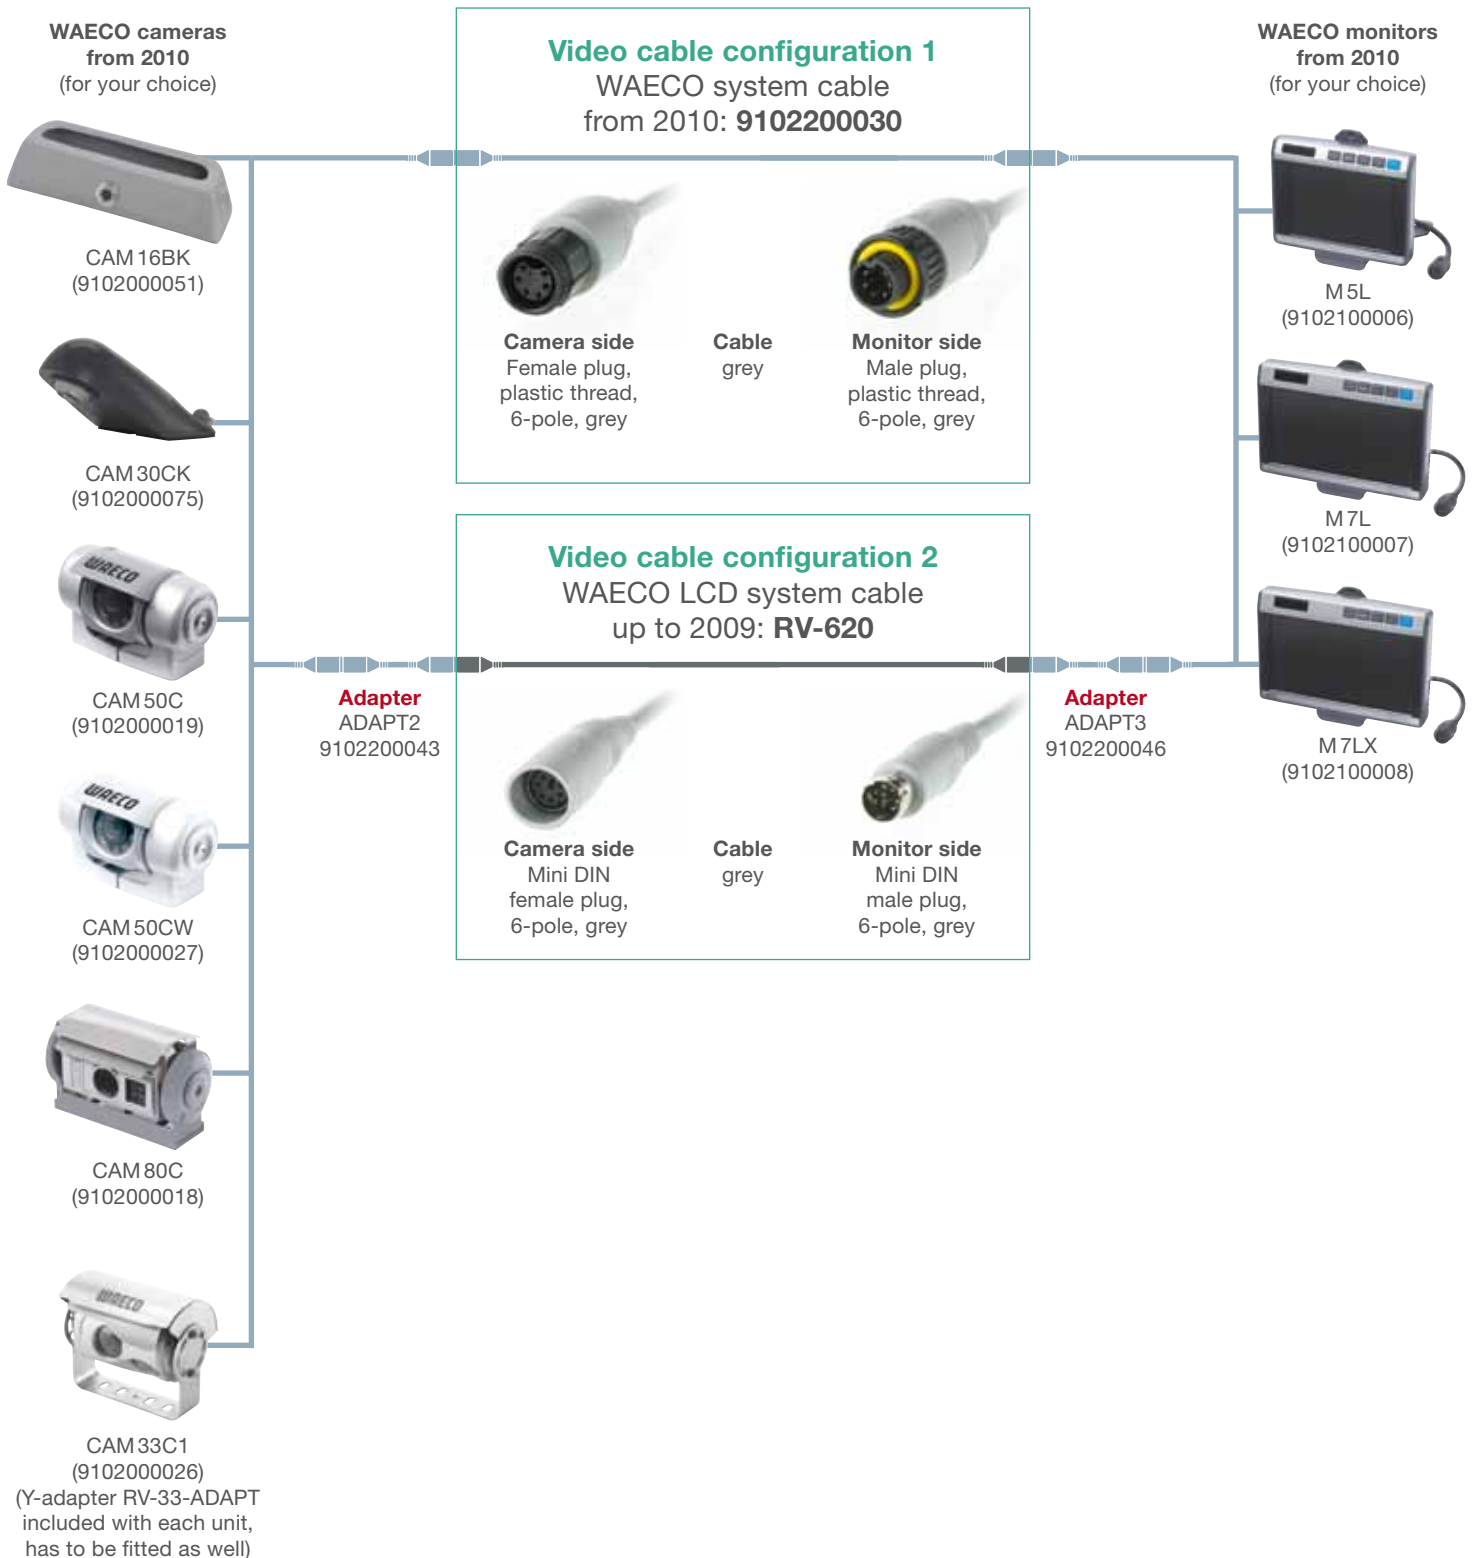

1. Retrofit options for pre-installed WAECO video cables	4
2. Retrofit options for pre-installed video cables of other makes	5 – 6
3. Retrofit options for pre-installed video cables of navigations systems	7 – 10
4. Conversion of existing systems to new WAECO reversing video systems	11 – 25
5. WAECO reversing video systems from 2010 at a glance	26 – 27

Legend – cable colours used in the diagrams

	WAECO RV-245 / RV-250/LCD system cable
	WAECO CRT system cable up to 2009 or other make
	WAECO LCD system cable up to 2009
	WAECO system cable from 2010

1. Retrofit options for pre-installed WAECO video cables

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to WAECO cables of older make. When placing your order please specify the required adapters along with the reversing video system of your choice (see p. 26/27).

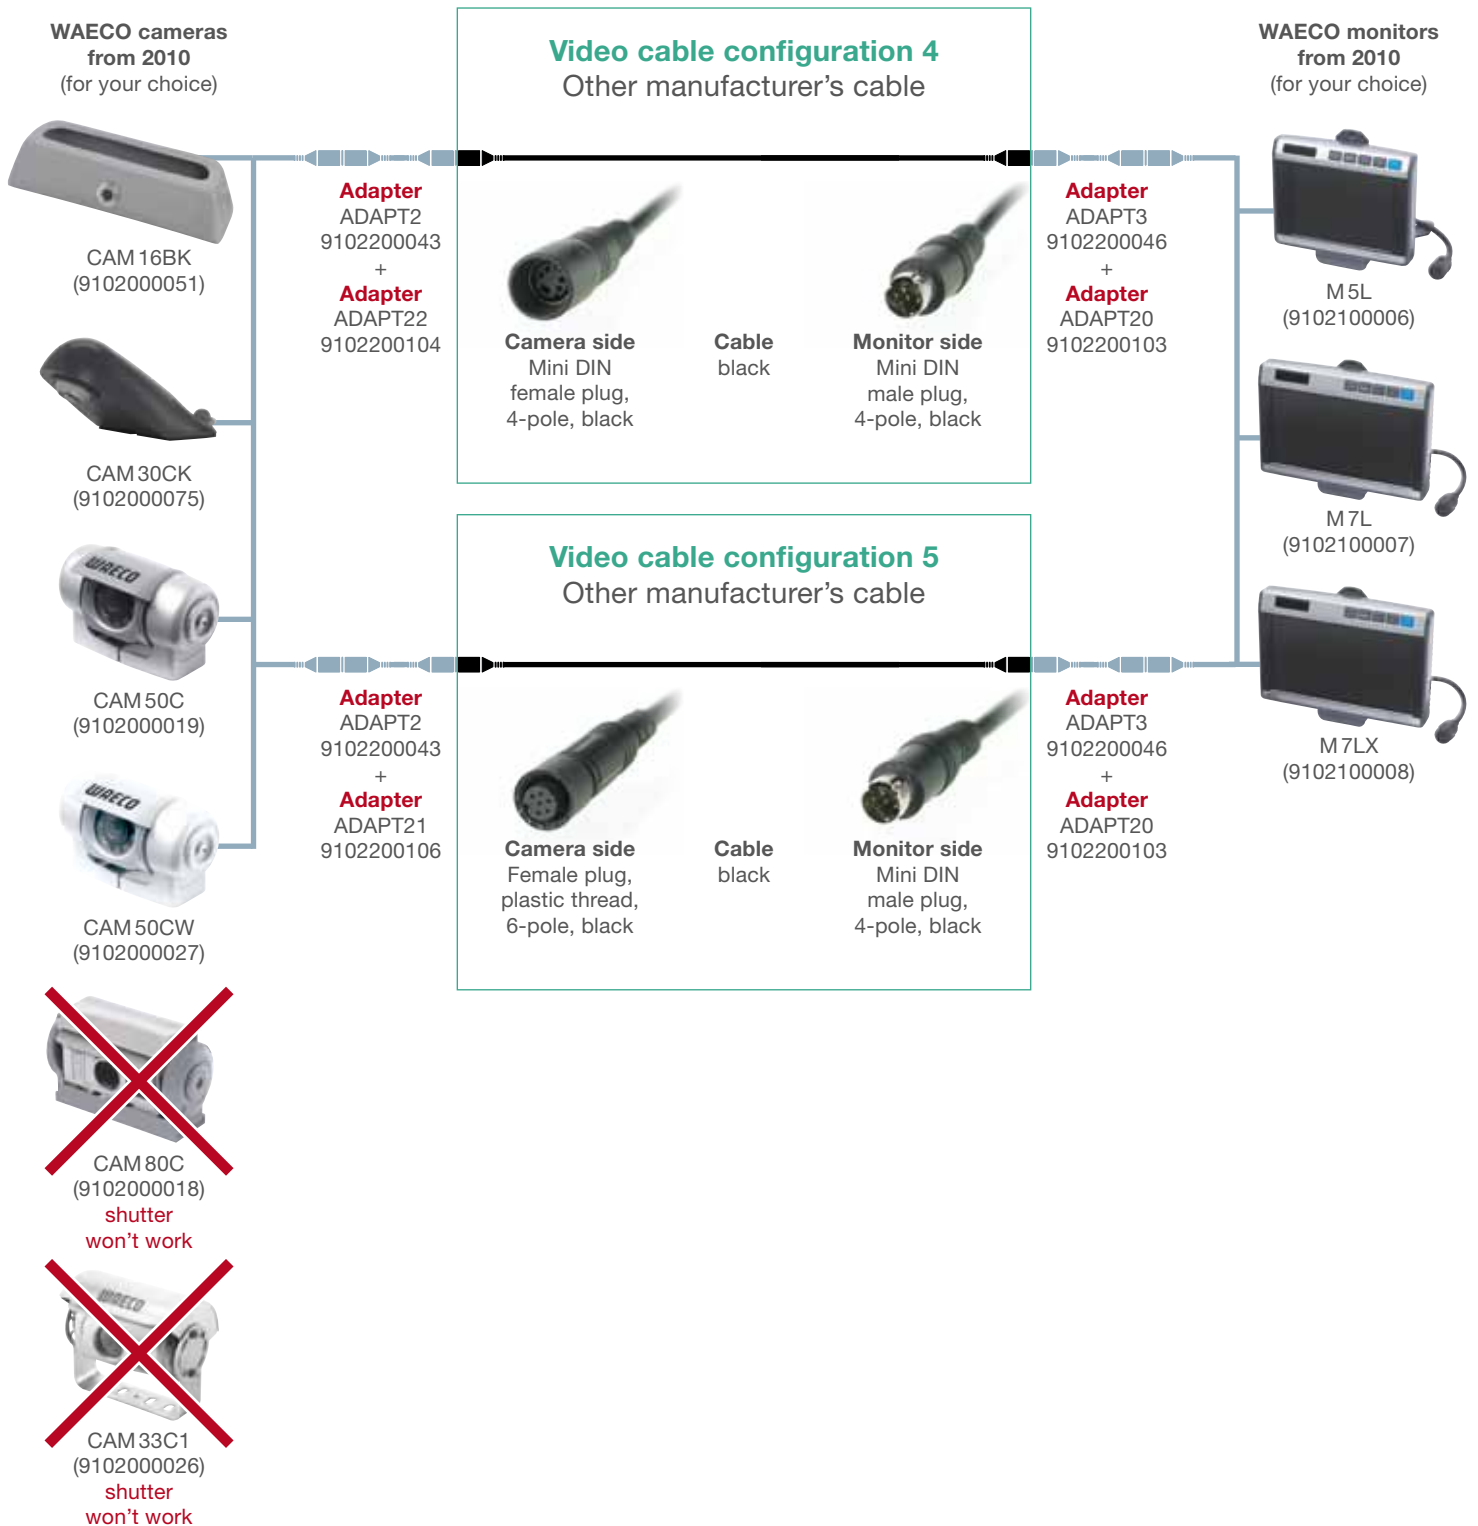

2. Retrofit options for pre-installed video cables of other makes

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to other manufacturers' cables. When placing your order please specify the required adapters along with the reversing video system of your choice (see p. 26/27).

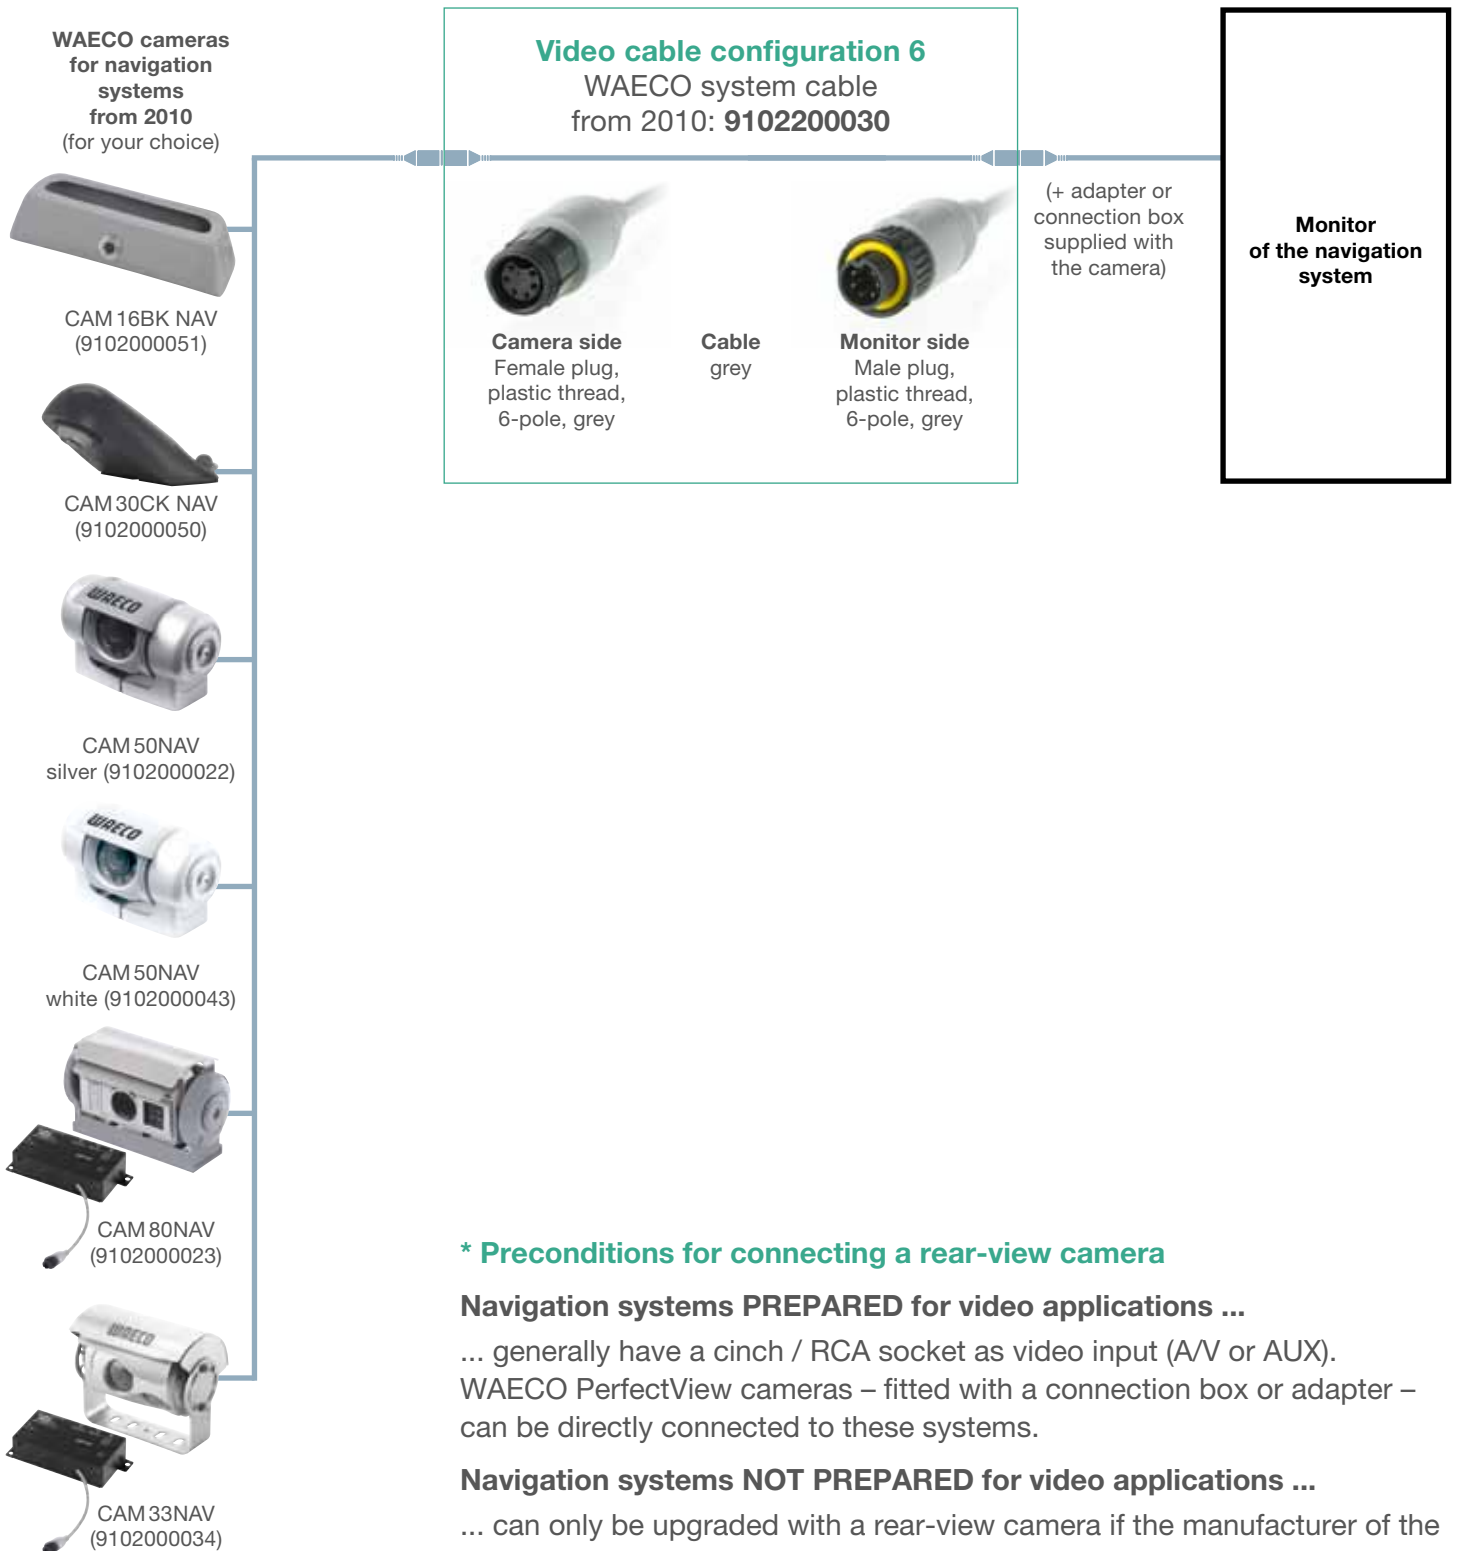

2. Retrofit options for pre-installed video cables of other makes

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to other manufacturers' cables. When placing your order please specify the required adapters along with the reversing video system of your choice (see p. 26/27).

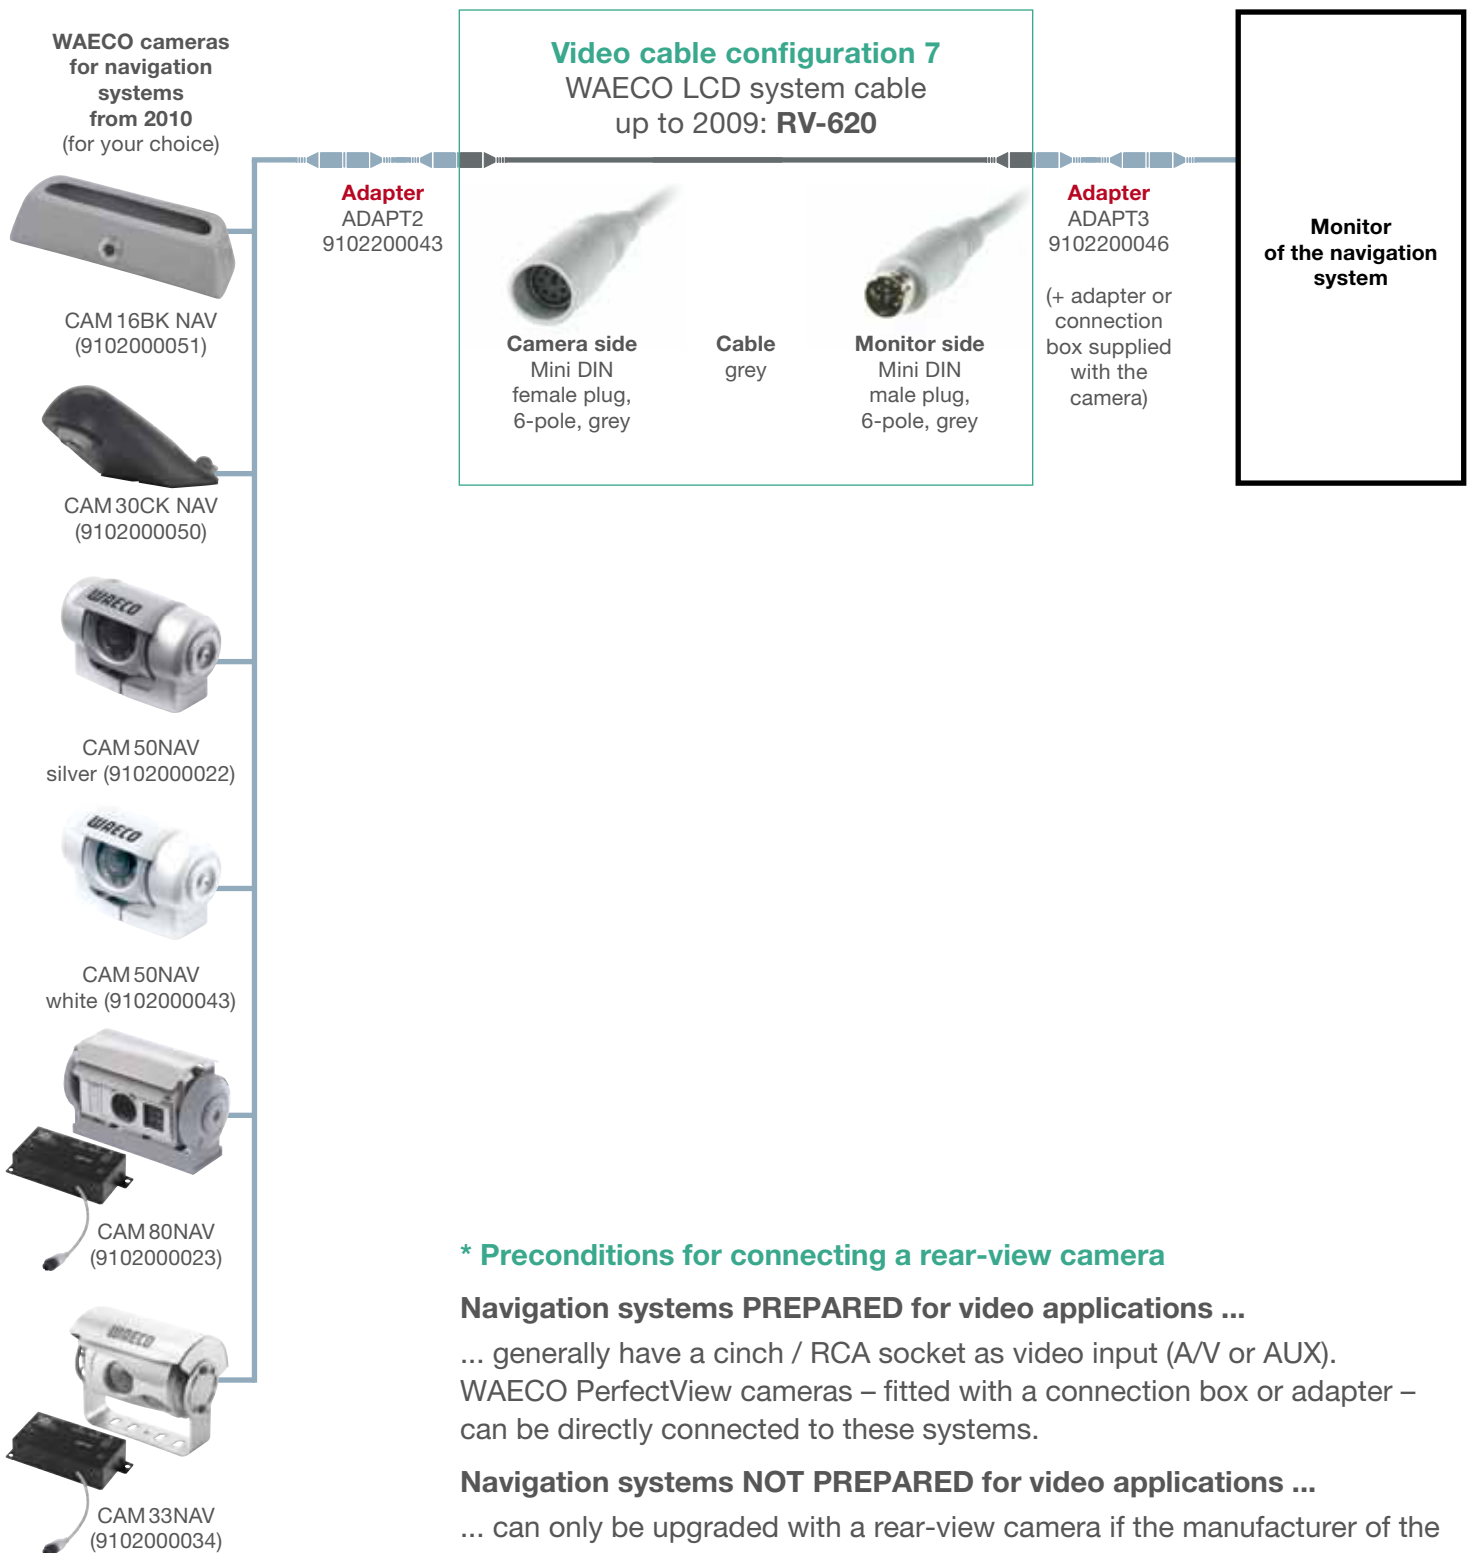

3. Retrofit options for pre-installed video cables of navigations systems (WAECO system cable)

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to the navigation system.* When placing your order please specify the required adapters along with the camera for navigations systems of your choice (see p. 26/27).

3. Retrofit options for pre-installed video cables of navigations systems (WAECO LCD system cable)

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to the navigation system.* When placing your order please specify the required adapters along with the camera for navigations systems of your choice (see p. 26/27).

* Preconditions for connecting a rear-view camera

Navigation systems PREPARED for video applications ...

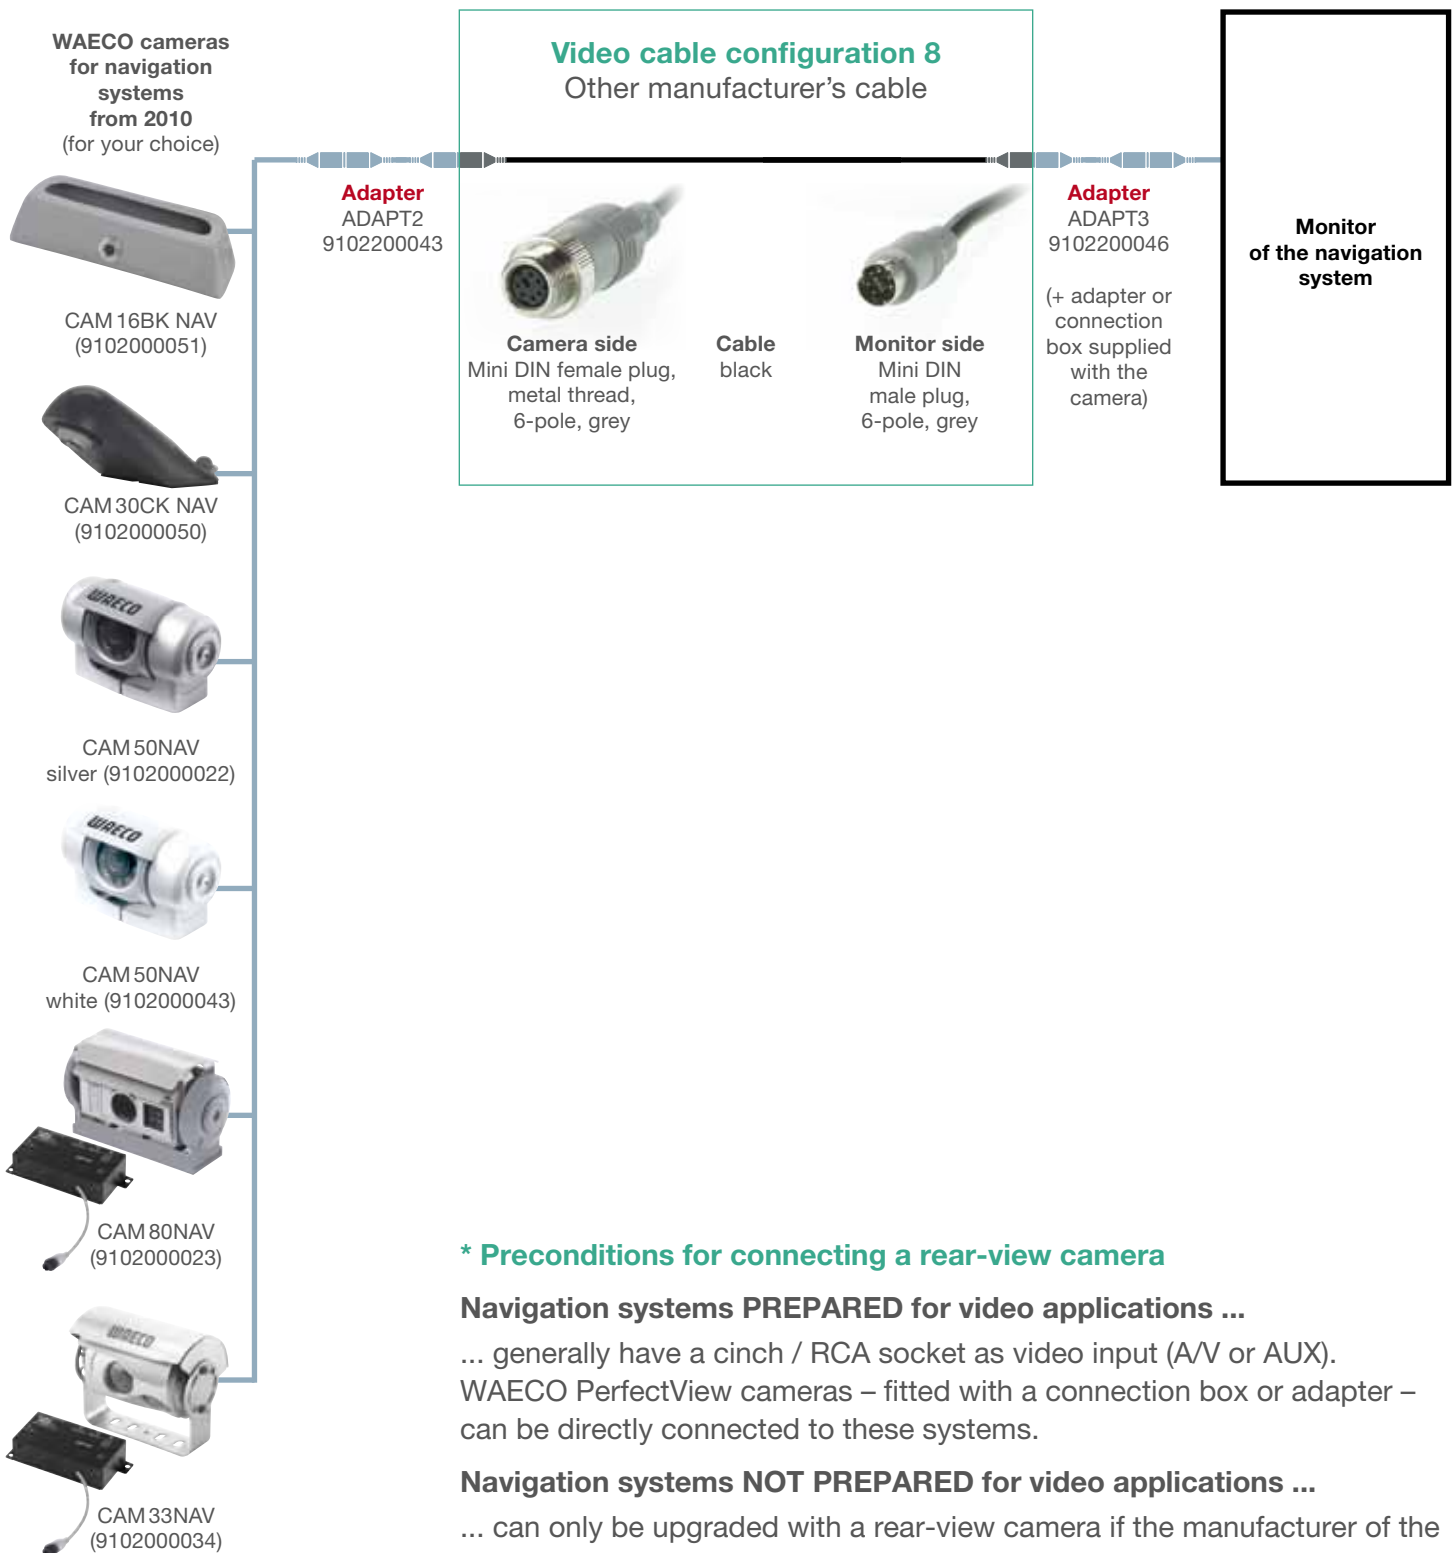

... generally have a cinch / RCA socket as video input (A/V or AUX).
WAECO PerfectView cameras – fitted with a connection box or adapter – can be directly connected to these systems.

Navigation systems NOT PREPARED for video applications ...

... can only be upgraded with a rear-view camera if the manufacturer of the navigation system offers a matching video converter.

3. Retrofit options for pre-installed video cables of navigations systems (other manufacturer's cable)

Identify the cable fitted in the vehicle by the plug/socket pictures. Using the adapters shown in the diagram you can easily connect the WAECO components pictured left and right to the navigation system.* When placing your order please specify the required adapters and the camera for navigations systems of your choice (see p. 26/27).

* Preconditions for connecting a rear-view camera

Navigation systems PREPARED for video applications ...

... generally have a cinch / RCA socket as video input (A/V or AUX).
WAECO PerfectView cameras – fitted with a connection box or adapter – can be directly connected to these systems.
