

A woman with blonde hair, wearing a dark jacket and a light-colored vest, is smiling and holding a white mug with a blue logo. She is sitting inside a motorhome, looking out the window. The interior of the motorhome is visible, including a white wall with a vent and a small table with a lamp. A large blue graphic element, resembling a stylized 'N' or a wave, is overlaid on the image.

Service doors

Portfolio Update – Feb 2026

THETFORD

Current situation

Aftermarket Service doors currently come as a “bare replacement”. They include the door itself, but no lock housings.

This will help reduce the number of SKUs, and variables both Thetford and our customers should need to keep in stock.

We have also standardised pricing for each door model.

Solution

We have now created an updated portfolio to include a more suitable range, making replacing a Service Door easier for the end user, by including the necessary parts in the box.

On the next slide is an overview of the old part codes, which are now phased out, and the respective replacement, including which lock/housings are included.

These configurations are based on our current and prior offerings to OEM customers, so the customer will get the parts they need.

Please ensure your systems are updated to reflect these changes.

Thetford service door changes with new part numbers. - new part numbers now come with locks as per below

Door	Current Spare	Current Description		AM Replacement Number	Description	Lock/Housing Included
Door 3	2662822	SD3 DOOR 3 WEI	>>>>>>>>	2680522	SERVICE DOOR 3 LCK/ZA WEI	Zadi lock + Fawo 2 & Snake lock Housings

These doors have no lock housings or lock barrels.

The new doors will have frame inner, Zadi lock housing and barrel included. We will also add Snake lock where previously offered to an OEM to give a direct replacement.
